Director's Meeting

Monday, 2 July 1951

Some discussion in regard to our relations with General Donovan. It was generally felt that for various reasons we should not be cut in too much on our operations; however, both the Director and Mr. Dulles believe we should play ball with him and see him from time to time. The Director stated that he would talk to General Donovan by telephone today and Mr. Dulles will make a point of seeing him before any trips abroad.

25X1 Mr. Dulles stated that he would talk to State Department about the two who are in this country at present.
